

Welcome to DELIVERED TO SECONDARY STUDENTS

What is VET DSS?

VET DSS stands for Vocational Education & Training Delivered to Secondary Students.

It combines Victorian Certificate of Education (VCE) or VCE Vocational Major (VCE VM) studies at school, with practical hands-on experience and training at one of our SWTAFE campuses. You need to be at least 15 years old and be in Years 10, 11 or 12 in the following year to apply.

Gain insights and experience within an industry you're interested in working in and get ahead in your career with a VET DSS program while still at school.

SWTAFE VET DSS programs are offered over a one or two-year period and contribute to your overall VCE or VCE VM requirements. As a student you will need to attend one of SWTAFE's campuses once a week and participate in Structured Workplace Learning (SWL) placements. These placements will enhance your skills and provide opportunities for employment.

What do I get from VET DSS?

- You can explore potential careers while you are still in school.
- ▶ The VET program you choose will contribute towards your VCE or VCE VM.
- Hands-on industry experience and employability skills.
- Credits towards further education via pathway opportunities post-secondary school.
- Valuable hands-on skills and experience for work, further training or university.
- You'll study close to home and experience an adult learning environment.
- You'll gain technical and specialised skills in your chosen area that will make you more employable; including communication, teamwork, problem solving and many more transferable skills.
- Nationally-recognised units of competency and qualifications, meaning the credentials are recognised anywhere in Australia.
- You can potentially earn while you learn if you study a school-based apprenticeship or traineeship.
- A VET qualification can lead to further study options within TAFE or university – it's up to you and your goals.

- VCE VM students must complete a minimum of 180 nominal hours to be eligible for their senior secondary certificate.
- VET DSS courses contribute to your ATAR if you complete the two-year course of study completing units 1-2 and 3-4.
- Some of SWTAFE's VET DSS programs contain a study score. These 'scored' VET DSS programs provide a study score like any other VCE subject, boosting your overall VCE results and ATAR score.
- Any 'non-scored' courses may provide an additional 10% increment towards your ATAR score.

SCARLETT SAGNOL – CERTIFICATE II IN ARTS

Why would I choose to do VET DSS?

Having a VET DSS qualification helps you to pathway into an apprenticeship, traineeship or employment, and best of all, when you have finished school – you can fast track into another course in the same area or we will help you choose an area of interest.

Sometimes, subjects at school may not be of interest to you. So once a week, come to SWTAFE and gain practical skills, employability skills and build your confidence.

Just remember there is no right or wrong reason to do VET DSS. In partnership with your school, we are helping to prepare you to start thinking about your future and the endless possibilities available to you.

What's next?

- ▶ This guide is designed to give you an insight into all the VET DSS courses available to you.
- We suggest you pick one or two courses that interest you.
- Your enrolment will be managed by your school. Ask your school VET DSS Coordinator for more info and steps on how to enrol.

WHY **CHOOSE SWTAFE?**

TAFEs offer practicallyoriented courses that are designed to give you the skills, training and qualifications you need for the workforce.

Our courses enable you to gain qualifications for all types of employment and specific skills to help you in the workplace.

You'll be more employable

TAFE graduates actually have a high employment rate.

86% of students who completed a course at SWTAFE last year were employed or enrolled in further study after training.1

High employment outcomes

81 out of the top 100 largest growing occupations in Victoria are attainable via a TAFE education.2

TAFE unlocking opportunities

By 2026, 9 in 10 new jobs will require a post-school education. And 80% of future jobs are attainable via a TAFE education.2

You'll learn specific skills

When you study a TAFE course, you're learning hands-on practical skills that you need to do a specific job; whereas university degrees tend to focus more on the theory aspect, giving you a large general knowledge base in your chosen field.

Spend less time, less money

The length and cost of a TAFE course is also a key difference between TAFE and university. TAFE courses typically take from six months to two years to complete, while university degrees can require a minimum of three or four years full-time.

You'll earn while you learn

TAFE gives you the opportunity to work while you train, whether that's through an apprenticeship or by studying part-time while working in industry. Often that extra practical experience is what gives you an edge over university graduates.

The Value of TAFE in Victoria, McCrindle May 2024

SCHOOL-BASED APPRENTICESHIPS + TRAINEESHIPS

Why choose an apprenticeship or traineeship?

- Combine your VCE VM with on-the-job training in a supportive environment.
- Gain valuable work skills and experience.
- Earn while you learn and get paid to develop your skills.
- Develop nationally-recognised skills in high demand areas.
- Get a head start in your career.
- Use your studies as a pathway or to gain credit towards further study.

School-based apprenticeships and traineeships allow Year 10, 11 and 12 students to start an apprenticeship or complete a traineeship while still at school.

On average, one day a week is on the job with an employer, plus some of the school holidays. For the rest of the school week, you complete the South West TAFE component of your training as well as your other VCE VM subjects. It takes from one to three years to complete.

As a school-based apprentice, you undertake the first stage of your formal or off-the-job apprenticeship training at school. Then you can jump into full-time employment as a second-year apprentice if you successfully completed the training program while at school.

You can combine a VET DSS course with a school-based apprenticeship or traineeship, but they must be across different areas. For example, you can undertake a school-based automotive apprenticeship and an agriculture VET DSS program.

School-based apprenticeships and traineeships are offered in a range of areas including:

- Agriculture
- Automotive
- Bakerv
- **Barbering**
- **Beauty Services**
- **Business**
- **Cabinet Making**
- Carpentry
- **Community Services**
- Early Childhood **Education & Care**
- Electrotechnology
- **Engineering**
- Hairdressing
- Horticulture
- Make-up
- **Meat Processing**
- Plumbing

I have learnt so many new skills during this course and the teachers have been super supportive.

DISABILITY **SUPPORT**

We are committed to providing equitable opportunities for students with disability. We ensure reasonable adjustments, modifications and supports are agreed upon collaboratively.

These supports may include one or more of the following:

- Physical disability
- Visual or hearing impairment
- Mental health condition
- Learning disability
- Intellectual disability
- Medical condition
- Permanent cognitive delay
- Chronic illness
- Speech/communication impairment
- Mental health condition
- Psychosocial disability
- Acute or chronic medical conditions

SWTAFE will work collaboratively with the student support group at your secondary school ensuring you have a smooth transition into SWTAFE.

- and enrolment assistance
- Orientation to the organisation and introduction to key staff members

- Australian sign language (Auslan) interpreters
- Alternative formatting of class materials
- Access to software, technology and equipment that enhance learning
- Referral to other support services,

Supports may include the following;

- Pre-enrolment information
- Advice regarding physical access
- Liaison with teachers
- Participation assistance

- Assessment accommodations
- e.g. counselling and welfare

AGRICULTURE

P This is a partial completion program, see page 7.

CERTIFICATE II IN AGRICULTURE AHC20122®

Gain a range of practical skills required to work on a farm including working with livestock, farm work, environmental sustainability, chemical usage and farm maintenance.

Agriculture and agribusiness are diverse sectors that are immensely important to both our local region and country. It's an exciting time to be entering the industry with constant growth in new systems and technologies.

YOU WILL LEARN:

- moving, mustering and handling stock
- · operating quad bikes and side-by-sides, loading stock and carrying out animal birthing
- · installing, maintaining and repairing fencing
- providing feed for stock and monitor water supplies
- · applying chemicals under supervision
- inspecting and cleaning machinery, tools and equipment to preserve bio security.

EDUCATION PATHWAYS:

- Certificate II in Agriculture AHC20122 (full completion)
- Traineeships in agriculture
- Certificate III in Agriculture AHC30122
- Certificate III in Dairy Production AHC30224
- Certificate IV in Agriculture AHC40122
- · Diploma of Agriculture AHC50122

LOCATION:

SWTAFE Glenormiston campus SWTAFE Hamilton campus

DELIVERY:

One afternoon a week plus one week in school holidays.

CREDIT:

Students will receive eligible credit towards their VCE or VCE VM senior secondary certificate.

Check with your school for more details.

CAREER PATH

- Farm hand or farmer
- Farm or station operator
- Agricultural sales
- Agronomist
- Stock agent

AGRICULTURE

CERTIFICATE II IN AGRICULTURE

Josie Collins was always destined for a career in the agriculture industry and a VET DSS course is helping her on her way.

I have grown up in the equine industry and love everything about agriculture.

I'm currently studying an agriculture course through VET DSS at Glenormiston and finishing secondary school at the same time.

I have learnt so many new skills during this course and the teachers have been super supportive.

The facilities at Glenormiston are the perfect place to learn, giving you the opportunity to learn something in the classroom

and then walk straight out the door and put it into practice.

This course has also led me to gain work on a dairy farm at Winslow where I work on weekends and in the holidays helping with milking and silage.

Once I complete Year 12 I'm hoping to take a gap year to work on a station in the Northern Territory before completing my Diploma of Agriculture and eventually work in the agronomy field.

Contact the disability support team for more info

AUTOMOTIVE

CERTIFICATE II IN AUTOMOTIVE VOCATIONAL PREPARATION AUR20720

If you like working on cars, bikes, trucks or anything with an engine and want to gain some base-level mechanical skills to build on, this course is for you.

This course gives you an overview of engine, transmission, cooling, fuel, steering, suspension and braking systems, tools, general service and repair. It's ideal for people who have an interest in the automotive trade and associated technology or want to pursue an apprenticeship in the field.

YOU WILL LEARN:

- to identify, use and maintain automotive tools
- electrical and mechanical systems and components
- battery services
- multiple and single-cylinder petrol engines
- · electronic circuits
- · basic car and engine services.

EDUCATION PATHWAYS:

- Automotive apprenticeship
- Certificate III in Light Vehicle Mechanical Technology AUR30620
- Diesel mechanic apprenticeship

LOCATION:

- SWTAFE Warrnambool campus
- Cobden Technical School Trade Training Centre
- SWTAFE Colac Trade Training Centre

One afternoon a week plus one week in school holidays.

BUILDING

Auspiced training, see page 7.

(P) This is a partial completion program, see page 7.

CERTIFICATE II IN BUILDING AND CONSTRUCTION PRE-APPRENTICESHIP 22614VIC

Get a taste of the building industry, learn to use a wide variety of building tools and techniques and get your hand skills to an acceptable industry standard. You will construct a cubby house from ground to completion as part of this course.

Build organisational and self-management skills in preparation for a head start in gaining an apprenticeship in carpentry.

YOU WILL LEARN:

- levelling procedures
- workplace health and safety and first aid
- how to use carpentry tools and equipment
- setting out a wall frame and sub-floor construction
- · windows and doors installation
- · how to safely use work platforms.

EDUCATION PATHWAYS:

- Certificate II in Building and Construction Pre-Apprenticeship 22614VIC (full completion)
- Apprenticeship in the building and construction industry
- Certificate III in Carpentry CPC30220
- Certificate IV In Building and Construction CPC40120
- Diploma of Building and Construction (Building) CPC50220

SETH **TEMPLETON**

CERTIFICATE II IN COOKERY

A VET DSS course is helping Seth Templeton towards his goal of becoming a chef.

I currently attend Merri River School and am studying the Certificate II in Cookery at South West TAFE as part of the VET DSS program.

This course is perfect for me, I am loving it. I love cooking and when I finish school I want to become a chef.

I am learning new skills and expanding the variety of things I can now cook -I particularly enjoyed learning to cook ramen recently.

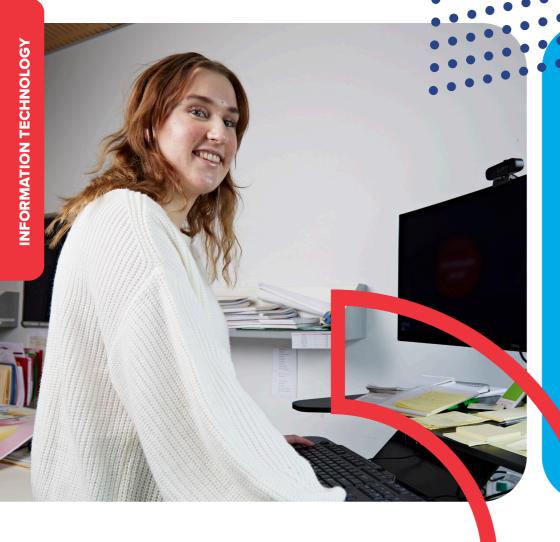

Through my course I have made new friends and new skills that will help me in the future.

I now know that this is definitely the career path I want to follow in the future.

Hove cooking and when I finish school I want to become a chef.

CAREER PATH

- ▶ IT technician
- Help desk or technical support officer
- ▶ ICT customer service representative
- Programmer
- Software or web developer

INFORMATION TECHNOLOGY

CERTIFICATE III IN INFORMATION TECHNOLOGY ICT30120

If you have ever wanted to build computers and networks, now you can. Get entry-level training and be prepared for a diverse range of career opportunities across a wide range of industries.

You can also learn to troubleshoot and repair faulty hardware, diagnose malware, maintain software and operating systems, and protect and secure ICT systems.

YOU WILL LEARN:

- · critical and creative thinking
- · how to run standard diagnostic tests
- introductory programming techniques
- · how to provide ICT advice
- maintenance of digital security devices
- how to evaluate cloud computing solutions and services
- to build simple web pages

EDUCATION PATHWAYS:

SCARLETT SAGNOL

CERTIFICATE II IN ARTS

Scarlett Sagnol is boosting her creative skills with a VET DSS course at South West TAFE.

I am currently in Year 12 at Mortlake College and have always I have been able to build my been creative.

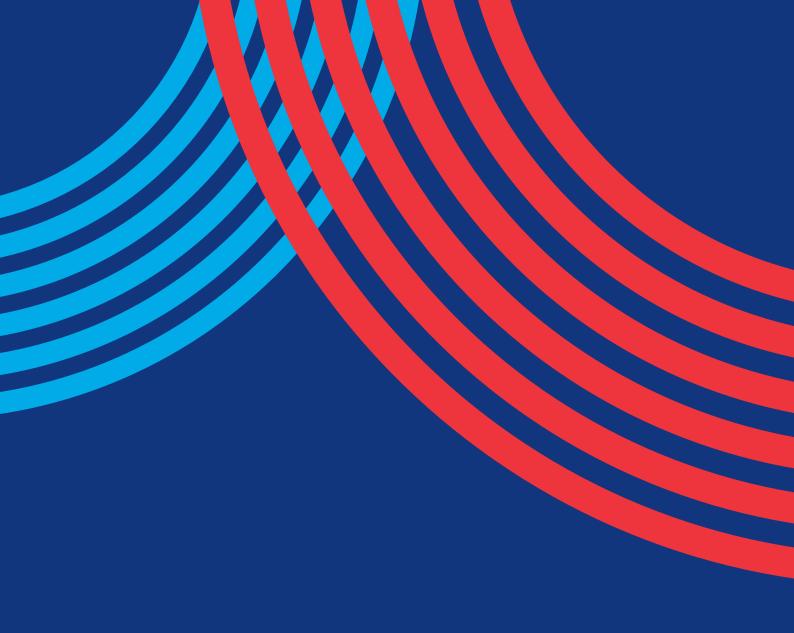

I have studied art during VCE at school but wanted to further my skills with the Certificate II in Arts.

During this course I have had the opportunity to learn new skills in drawing, painting, sculpture and screen printing.

Being exposed to so many different art mediums has helped to confirm my decision to pursue a career in a creative industry.

portfolio to support my application for an interior design course at university next year.

I would definitely recommend a VET DSS course to anyone. It gives you different opportunities and more hands-on experience.

ANY QUESTIONS?

Head to **vetdss.swtafe.edu.au** for more info, discuss your options with your VET DSS Coordinator or contact the SWTAFE VET DSS team via 1300 648 911 or email vetdss@swtafe.edu.au
