VET DELIVERED TO SECONDARY STUDENTS

Certificate II in Automotive Vocational Preparation (AUR20720) (full completion)

PROGRAM DESCRIPTION

The Certificate II in Automotive Vocational Preparation is a pre-vocational program designed to introduce students to automotive theory and culture. It provides a solid foundation in the practical skills required to successfully gain an apprenticeship in the automotive industry. Units cover industry research, using and maintaining measuring equipment, operate electrical testing equipment, electronics and vehicle engine reconditioning and maintenance.

WHO SHOULD APPLY?

Students interested in further study in specialist or industry specific streams of the automotive industry. The program will also appeal to students seeking a sound working knowledge of basic automotive procedures. With additional training and experience, future employment opportunities may include trimmer, detailer, panel beater, heavy or light vehicle mechanic. People working in trades are in high demand.
