

Certificate II in Building and Construction Pre-Apprenticeship (22614VIC) (partial completion)

PROGRAM DESCRIPTION

The Building and Construction program is designed to provide the skills required for a successful career in building and construction. This program provides a taste of what the building industry is like as a career. It also provides a wide variety of experience in using tools while developing skills and techniques and provides a partial completion of the Certificate II in Building and Construction pre-apprenticeship program. Units include safe handling of plant and power tools, quality principles for the building industry, calculations, wall and roof framing, building structures, setting out and workplace documents and plans.

WHO SHOULD APPLY?

People working in trades are in high demand. This program will provide students interested in the building industry with a sound basis for employment. Careers include Carpenter, Fixing Carpenter, Formwork Carpenter, Joiner, Cabinet maker, Bricklayer or Builder.
